SOFTWARE ENGINEER

As a passionate Web Developer, I excel at collaborating with cross-functional teams to create dynamic and responsive web applications that meet client needs. I am a quick learner, adept at problem-solving, and committed to staying up-to-date with industry trends and best practices. With a strong attention to detail, my focus is on delivering quick, and effective results.

SKILLS

JavaScript, HTML, CSS, Node.js, React, Redux, Next.js, MongoDB, PostgreSQL, Tailwind, Bootstraps, Hydrogen, Oxygen, Software Development, Debugging, Management, Training, Sales

EDUCATION

DigitalCrafts | Certificate in Full Stack Web Development   **June 2023**
- 17 week program, 5-days a week, 70 hours per week invested coding
- Worked on group projects, a solo project, and daily homework assignments

  Topics covered include:
  - Understanding of technologies and proper implementation
  - Building RESTful APIs and Server-Side websites
